DUO POWER ASSIST KIT

Go further, faster

With high-performance and an impressive battery life thanks to a regenerative braking system, the Duo Kit combines sharp handling with riding pleasure and a top speed of **10 km/h**

Configure according to your needs

The DUO adjusts to every situation:

- ★ **Power assist** mode for you and your helper
- ★ **Single Push** mode for long distances
- ★ **Manual mode** possible at all times thanks to the lightweight wheels
- ★ **Foot propulsion assistance** for hemiplegics

Stay in shape

Keep moving, work out!
Protect your joints, avoiding unnecessary effort, especially over long distances.

Ergonomic and compact

Enjoy the lightest power assist kit on the market - only **4.5 kg per wheel**.

So easily dismantled that it goes wherever you go.
